PSORIASIS DAY 2020  
PRESIDENT WELCOME

Dear Colleagues and Friends,

On behalf of the Lebanese Dermatology Society, it is my great pleasure to invite you to attend the Psoriasis Day 2020 that will be held on the 30th of October 2020.

This year, due to the COVID-19 pandemic this event will be held virtually.

The main objective of this awareness day is to spread information about psoriasis, dispel common myths, answer questions and inform patients about their condition. This awareness day will be an opportunity for the psoriasis patients to speak out from a common platform and have their voice heard; the Ministry of Public Health representatives and third-party payers in Lebanon will also be attending.

A professional session will follow this public event to discuss the novel treatment approaches in psoriasis management. This session is accredited 2.5 CME credits by the Lebanese Order of Physicians. It will be animated by international and local speakers and represents the perfect opportunity to discuss psoriasis new studies and treatment.

As a society, we are focused on continuous patients support to live with psoriasis and psoriatic arthritis by partnering with regional and international organizations to promote awareness, early diagnosis and treatment, in a quest to address the lifelong physical, social and psychological burdens associated with the disease.

In these regards, I encourage all dermatologists and rheumatologists to actively participate in what promises to be a highly interactive public and scientific meeting.

Looking forward to welcome you,

**Pr Fouad El Sayed**  
**President of the Lebanese Dermatology Society**
